

Menominee Adventure

Integrated science with real world connections, plus a lot of fun !!

Michigan Earth Science Teachers Association in cooperation with Wisconsin Society of Science Teachers

Highlights:

- * Hiking rock outcrops and collecting
- * White water rafting (Class IV rapids)
- * Mining history (underground mine tour; largest pump in North American)
- * Menominee area geology (volcanic, tectonic, faulting, minerals)
- * Erosional features (oxbow lakes, river meanders, drumlin fields)
- * New Back Forty Mine under development (metallic sulfides; Environmental protection, hydrology)

Meet with fellow educators and scientists; fun outdoor activities; learn more about science in our natural world. Plus it is designed to be family friendly.

Iron Mountain -
 Marietta/Menominee -
 Escanaba

Register by going to MESTA
 web site:
<http://www.mestarocks.org>

Registration will include a couple of lunches, mine museum and underground mine tour, all field experiences, and some maps.

White water rafting is additional option (with alternatives for those not rafting).

Housing will be arranged on your own.

Recommendations will be shared.
