

The Michigan Earth Science Teachers Association was established in 1966.

Our members include K-12 teachers, community college and university instructors, students and nontraditional educators interested in Earth Science.

MESTA is recognized in Michigan and nationally as a leading organization in the promotion of quality Earth Science education.

MESTA provides quality educational materials to science teachers at major Michigan conferences. Watch for Rock Shop, along with our "Free and Inexpensive" items, Rock Raffle, and our famous conference showstoppers.

For more information about MESTA, or to join our membership online visit our website:
